Sample Requirements

Party	Number of Sets	Destination for Dispatch	Dispatch Location
Seller	2	Direct to third party (Other)	
Buyer	3	Direct to third party (Other)	
Umpire	1	ALS UK	
Reserve	1	ALS UK	

All samples to be dispatched by international courier (using ALS UK TNT account if possible). The AWB# and courier company for all parcels should be advised to ALS UK on day of dispatch.

Reporting

On agreement of final weights we should receive a counter-signed weight document between all parties who have attended supervision.

It is essential that in the event of a negative weight result outside accepted tolerance levels that no weight document is counter-signed without confirmation from the customer/ALS UK.

In the event of any anomalies / problems on a shipment then ALS UK must be informed and Letter of Reserve / Protest issued after receiving confirmation from the client. These letters should be countersigned by all relevant parties and copies forwarded to ALS UK. In the event that any party refuses to acknowledge the contents of the letter then their signature should be sought for confirmation of receipt only.

Information & Documents

- ETA should be checked with port agents / forwarding agents and ALS UK updated regularly
- Once operations have commenced ALS UK must be advised of status on a daily basis. If there is no change in status then we require an email / telephone call confirming this
- Once weights and moistures are available then these must be advised to ALS UK immediately
- Copies of all relevant documents should be forwarded to ALS UK via email as soon as available. If there is to be a delay in issuance of these documents then ALS UK must be alerted immediately
- All samples, including bulk samples, must be clearly marked with all shipment information.
- All attending parties must seal all official quality samples.

If sample requirements cannot be met (i.e. limited number of samples to be released by Supplier / Receiver) then this must be advised to ALS UK immediately

Please acknowledge receipt and understanding of these instructions, should you require any further information of clarification do not hesitate to ask.
